**Re: Authorization under the Alaska Pollutant Discharge Elimination System (APDES)  
General Permit AKG332000 - Facilities Related to Oil and Gas Exploration,  
Production, and Development in the North Slope Borough**

Dear Mr. Kumar:

The Alaska Department of Environmental Conservation (DEC), Wastewater Discharge Authorization Program (WDAP) is issuing authorization **AKG332045 – Savant Alaska LLC, Gravel Pit Dewatering** for the following discharges:

- Discharge 003 – Gravel Pit Dewatering Authorizations for the following Mine Sites:
  - Shaviovik Gravel Pit (SHV1) for Ice Construction
  - Duck Island Mine Site (DIM1) for Ice Construction

This authorization is in response to a Notice of Intent (NOI) dated November 17, 2017 and becomes effective on November 28, 2017. An email request was included with the NOI application requesting that the gravel pit dewatering authorization under AKG332038 be combined with this permit authorization. Per your request, the Department has transferred the authorization to discharge from Shaviovik Gravel Pit to AKG332045 and the gravel pit dewatering authorization under AKG332038 has been deactivated and the Stormwater authorization under AKG332038 will remain in effect. A copy of this APDES authorization has been provided to the DEC Compliance and Enforcement Program (CEP). All correspondence with the Department regarding this authorization must include a reference to **AKG332045**.

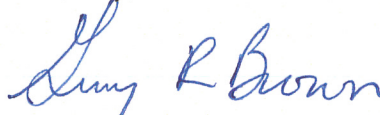

A team member with CEP will provide you with copies of the appropriate spill report and violation notification forms. Discharge monitoring reports (DMRs) must be submitted through the NetDMR portal per Permit Part 2.10.3.1. Submittal requirements including Annual Reports and all compliance notifications required by the permit must be sent to the following address:

Finally, thank you for submitting copies of your Quality Assurance Project Plan (QAPP) and Best Management Practices (BMP) Plan (revised November 2017) with your NOI. As a reminder, changes to limits and monitoring, DMR submittal frequencies, annual reporting requirements, as well as BMP Contents have been made under the reissued APDES General Permit AKG332000. The Department recommends permittees carefully review the Permit and Factsheet, then update their BMP and QAPP and submittal schedules as necessary to reflect these changes.

If you have any comments or questions regarding this authorization, please feel free to contact Jamie Grant at (907) 269-4720, or [Jamie.Grant@alaska.gov](mailto:Jamie.Grant@alaska.gov).

Sincerely,

Gerry R. Brown, PE - Manager
